Subject: Dilemma of Over-burdening of KE Consumers.

Dear Sir,

Whistleblower Pakistan (WBP) appreciates the efforts of all stakeholders who are striving hard to save the Industry, Economy and residents of Karachi against the wrong doings of K-Electric. No doubt that everyone is making their best effort to stop KE from non-prudent practices: however, each individual Stakeholder is submitting its case before NEPRA but none of the Stakeholders is satisfied with the working of NEPRA.

It is also a fact that there are capacity, information availability, human resource availability and sparing of time constraints. Till now all Stakeholders are making efforts individually and there is no platform to share the information amongst the Stakeholders.

WBP feels it necessary that efforts should be made jointly to save the interest of all, specially the interest of those poor people who have no resources to save their interest against the wrong doing of KE. Taking the lead in the matter and as a first step, WBP is sending all its communications, which it has sent to NEPRA so far in the matter of K-Electric's wrong doing.

List of communications sent to NEPRA by WBP in the matter of K-Electric:

WBP is also floating the idea of hosting a common website to upload the comments/submissions of all Stakeholders which they have submitted before NEPRA. Moreover, if any of us take the lead and help in converting our individual efforts into joint efforts that will be appreciated. We have so far suffered huge losses, including our respect, but now it is time to organize ourselves in such a manner that no one can deprive us of our rights.

Looking forward to hearing from you positively and in the very near future.

With best regards.

Yours faithfully,

  
(Syed Adil Gilani)
